

**Low cost online ordering for fast food**

**Takeaway**

**Restaurants & Cafés!**

**How we help transform your business.**

We are a new online ordering platform designed exclusively for independent cafe's, restaurants, fast-food & take-away food establishments.

We aim to provide high-end functionality and 'best in class' value for your amazing food offerings.

Our optimised shopping process, integrated payment solutions and order pickup & delivery options cater for all of your businesses needs.

You'll love our pricing so much that you'll actually want your customers to use it!

# Do you run a food establishment?

Food Monster was established in response to the ever increasing costs of online ordering systems in Australia's hospitality industry.

Some of these providers can charge as much as 30% or more commission of your orders and they're not even Australian owned companies, with a large percentage of your profits leaving our economy.

We aim to provide 100% Australian owned 'low cost' POS solutions for the Australian hospitality industry.

By keeping our costs low, we can help to keep your pricing competitive for your customers.
